Security Capabilities and Policy For Transmission Of Payment Card Details

When you process a donation using confidential personal credit card information on our Web site, a secure server software which we have licensed encrypts all information you input before it is processed. Other emails that you may send to us may not be secure unless we advise you that security measures will be in place prior to your transmitting the information. For that reason, we ask that you do not send confidential information such as Social Security or account numbers to us through an unsecured email.

Information Security.

We utilize encryption/security software to safeguard the confidentiality of personal information we collect from unauthorized access or disclosure and accidental loss, alteration, or destruction.

Evaluation of Information Protection Practices.

Periodically, our operations and foundation practices are reviewed for compliance with corporate policies and procedures governing the security, confidentiality, and quality of our information.

Employee Access, Training and Expectations.

Our foundation values, ethical standards, policies, and practices are committed to the protection of customer information. In general, our business practices limit employee access to confidential information, and limit the use and disclosure of such information to authorized persons, processes, and transactions.

For any urgent support or service inquiries regarding your donation please contact us:
